NEW GOODS.

Parstock of Dry Goods, Millinery and Notions for spring and summer is now very full and complete. The purchases were made by Mr. Ayres in person, who remains in New York the entire season and buys only when the goods are the right kind and quality, and the prices are the very lowest that cash can obtain. To farm-ers and mechanics we can offer the best goods in the market at prices as low as any house in the west, and that very few houses can dupli-cate. Come and see for yourself.

FINANCE AND BUSINESS.

GENERAL MARKET REVIEW.

MONEY NOTES,

The little financial hurricane in Wall street yesterday has probably no general significance beyond demonstrating that there is not a particle of confidence existing in the business world, and the least disturbance sets an avalanche of rumors in motion, sufficient to create a general panic, The stock market shook as if rent by an earthquake, and the fright was as wild and uncontrollable as if there had been one. The house of Capron & Merriam, which was caught in the lurch, seems to have a large share of sympathy.

The New York Bulletin, speaking of foreigu exchange April 17, says: The demand for exchange comes rather from bankers than importers, the former already beginning to provide for the remittances of May interest, no considerable part of which, it is believed, will be made in securities, as Europe seems to want no more American securities, unless United States bonds or the choicest old railroad bonds, and these are scarce. We should not be surprised to see specie shipments resumed in May, for our great crops have mostly gone, and there is very little to make exchange with.

Economist, whom that journal says "is well informed," writes as follows concerning the silver coinage demonstized by the German government: I beg leave to call your attention to some official statements, made by President Delbruck, on the question of selling the German silver. The government of the empire have frequently been urged to make haste in selling the German silver, and in the Parliament, as well as in the press, peo-ple anxious to get the pure gold standard as a reality, as soon as possible and at any price, have defended the doctrine that the German silver ought to be sold as soon as possible and at any price. It will not escape your sagacity that this would be a policy ruinous in a financial point of view, and threatening the money market of the world and the London money market as its center and representative with great distur-bances. I therefore never thought it likely that the government would follow the advice given by the radical gold ultras. On the other hand, it is evident that it is necessary for the government to sell as much of our superfluous silver as can be got rid of at tolerable prices, and you know best how very small bitherto the sales have been. In the debate of the German parliament of the 26th of March, Dr. Bamberger, a great au-thority in all financial and monetary matters, alluded to the trifling character of the sales hitherto effected. He estimated the whole amount disposed of at 10,000,000 of thalers, and saying that this was equivalent to nothing, compared with the great quantity we have to sell, he pressed the government to take more vigorous measures, for else the good luck, by which, as he was very right in observing, our monetary measures hith-erto have been favored, might turn, and very awkward consequences might follow. To these observations

PRESIDENT DELBRUCK

made the following reply: "If the demonetization of the silver coin has as yet not been affected in such a degree as was pointed out as desirable, by the speaker, many causes, and causes of different character, have combined to bring about such a result. The principal of these causes is the real impossi-bility of withdrawing from circulation the silver coins at once and speedily. We are under the necessity to employ the whole power of the German mints in the manufacturing of small coins, viz., of copper and nickel coins, and then of one mark pieces.' After having explained that this necessity was brought about by the wants of Southern Germany, Mr. Deibruck summed up as fol-lows: "Those silver coins which have been subjected to demonetization in order to sell them, have been sold at reasonable prices. We continue the demonetization of silver coins for the same purpose as far as it is pos sible, and you may feel confident that we have the earnest intention, and that we are at the same time able to keep a stock of silver, affording the opportunity of using Highland grate.

any favorable chances the market may offer." Highland steam I have made these quotations from the official reports, translating as literally as I am able to do, in order to show that the German government is by no means "reticent" (see leader of the Economist of March 28th) as to its intentions. The plain truth is, that it has as yet no considerable stock of bar silver, but that it is about to establish such a b ard. As long as the present privilege of the Bank of Prussia remains unaltered this may be done without loss of in-terest, this bank being entitled to keep part of its bullion in silver bars. But whether such a stock of German silver exists already to some extent or whether it is only part of a future plan, at all events the government has no intentior of seiling, unless it can sell at convenient prices. The idea, counte-nanced by the gold ultras I have mentioned before, that the German government was going te sell the great mass of silver, as it were, by auction, is therefore an erroneous

GENERAL MARKET REVIEW. WEEKLY REVIEW OF THE INDIANAPOLIS

WHOLESALE MARKETS.

MONDAY EVENING, April 20. Without remarks ble change, trade for the week past has been on the gain. Corn has been climbing, and dealers have made some money. Dry goods trade is healthy, but only fair for the season. Provisions are in a a hopef I condition, with a constant, but slow advance. On the whole, the regular business of the week has been fair, without

BREADSTUFFS. FLOUR-Holds it own, and stands at the same figures as for three week past. Fancy brands. Family. MILL FEED-Very scarce; demand exceeds the supply. Bran and shorts are quoted at \$20@22, fine feed at \$22@24, and middling at \$24@26.
WHEAT-Dull. Red is quoted, in elevator, at \$1 25@1 30; for amber, \$1 30@1 35, and white, \$1 35

CORN—In good demand. Sales of 20 cars were made at 67c for yellow. Clear yellow and high mixed, shelled in elevator is quoted at 66@67c;

a good spring trade.

LUMBER—First and second clear pine, \$55 per M; stock boards, \$25. Joists, scantling, etc., less than 18 feet, \$20; 18 feet, \$21; 54 feet, \$72 50025; dressed siding, \$2 50; flooring, Georgia hard pine, \$55, and common, \$30037 50, according to quality; shingles, \$404 50 for pine; poplar, \$3 50. The above are retail prices.

shingles, \$4@4 50 for pine; popiar, \$5 50. The above are retail prices.

Cement is quoted at \$2.25 per barrel. Plaster Paris—Michigan, \$3.50 per barrel; Newark, \$4 per barrel. Lime—Huntington, 35c; Flat Rock 32e per bushel. White sard, \$1 per barrel. Fire brick, \$35 per M. Fire clay, 75c per bushel. Building brick, \$6.50@8, according to quality. Lath, pine, at \$3.50. Hair, 40c per bushel. Nails, 10s and 60s, \$4.60; \$8 and 9s, \$4.75; 6s and 7s, \$5; 4s, \$5.25. WINDOW GLASS

8x15 to 10x13 Discount fifty-five per cent, off above. COUNTRY PRODUCE.

There has been an irreconcileable disagreement among dealers as to the paying prices for eggs and butter. Home dealers offer and pay for eggs and for butter above the shippers' prices, These sell to the trade mostly at home, and the goods are delivered at their places of business. The local butter market is fair, and a good article is worth from 35@fc. But large

GEO. W. HUSTON	Stock A	gent P. C. &	St.	L.R.	R.

This has been an eventful day in Wall

street. It opened with the failure of Capron

& Merriam and the C., C. & I. C. pool, and

this was followed by events which precipi-

tated a panic in the Stock Exchange. The

failures below noticed were followed by

turb confidence and unsettle matters gen-

erally. At one time it was currently re-

ported that a Philadelphia railroad official

was unable to meet his notes. Inquiry at

the proper sources failed to substantiate the

rumor. This was followed by a report that

President Grant would sign the Senate cur-

immediately issue instructions to national banks, requiring them to call home their

legal reserves, now held for redemption in cities in excess of the amount required un-

der the new law. Then came a report that a

MONEY, STOCKS, ETC. NEW YORK, April 20.

various rumors, all of which tended to dis-

as last week.

NUTS—Quoted: Almonds, soft shell, 23@25c; filberts, 19c; walnuts, French, lic; Naples, 26c; Brazil nuts, 15c, peanuts, raw, 8@12c; roasted,

Northwest and St. Paul common stocks were freely pressed for sale in consequence of the prospect of the new railroad legislation West being put into operation, materially reducing the present rates of freight. The former declined from 50% to 47%, and the latter from 40% to 38%; Western Union dropped from 74% to 71%; Lake Shore from 75% to 73%; New York Central from 98 to 96%; Erie irom 37% to 36; Rock Island from 90% to 97%; Ohios from 29% to 26%, and Union Pacific from 34% to 33. At one time during the afternoon there was a rally of 1/4@2/2 per cent, but at the final close the market was heavy and lower again. A sudden and sharp advance in money from from 4 per cent currency to 7 per cent gold, and a vague rumor that some banks were in trouble, caused a heavy decline in stocks to day and disturbed seriously the margins of the weaker classes of speculation, and large sales for their account helped to depress matters on the Stock Exchange.

Ever since the September panic Capron & Ever since t

Ever since the September panic Capron & Merriam have been carrying large amounts of C., C. & I. C., it is stated, as high as 24,000 shares. For a day or two back rumors have been in circulation to the effect that about 20,000 of these shares have been hypothecated at the German-American bank and that in consequence of the change of management in the said institution the loan had sition was acquiesced in by a number of other creditors present and a paper was im-mediately drawn up and signed by most of Business is improving and prices are firm.

BAR IRON 1½ inch to 4 inches by 3½ inch to 1 inch, 3.4; inch to 1½ inch, round, 3.4; other sizes at regular list prices.

MARKETS BY TELEGRAPH.

railroad and steamship war was likely to result from the inability of the Pacific Mail,
Panama and Union Pacific to agree upon
some amicable freight arrangement, and
that the Central Pacific road was about consummating an agreement with an English
company to put on an opposition line of
steamers between San Francisco, Japan and
China. All the facts and rumors mentioned above caused an enormous pressure

MARKETS BY TELEGRAPH.

NEW YORK—Cotton quiet and firm; middling uplands, 17%; fotures closed steady; sales,

ALUABLE INFORMATION.

BOSTON, Dec. 12, 1889. Gentlemen—My only object in giving you this testimonial is to spread valuable information, Having been badly afflicted with Salt Rheum, and the whole surface of my skin being covered with pimples and eruptions, many of which caused me great pain and annoyance, and knowing it to be a blood disease, I took many of the advertised blood preparations, among which was any quantity of Sarsaparilla, without obtaining any benefit, until I commenced taking the Vegetine; and before I had completed the first bottle I saw that I had got the right medicine. Consequently I followed on with it until I had taken seven bottles, when I was pronounced a well man, and my skin is smooth and entirely free from pimples and eruptions. I have never enjoyed so good health before, and I attribute it all to the use of Vegetine. To benefit those afflicted with Rheumatism, I will make mention also of the Vegetine's wonderful power of curing me of this scute complaint, of which I have suffered so intensely.

C. H. TUCKER, Pass. Agt. Mich. C. R. R.,
29 Tyler Street, Boston. Gentlemen-My only object in giving you this

HAS ENTIRELY CURED ME. Boston, October, 1870

Dear Sir-My daughter after having a severe attack of whooping cough, was left in a feeble state of health, being advised by a friend, she tried the VEGETINE, and after using a few bottles, was fully restored to health. I have been a great sufferer from Rheumatism. I have taken several bottles of the VEGETINE for this complaint, and am happy to say it has entirely cured me. I have recommended the Vegetine to others, with the same good results. It is a great cleanser and purifier of the blood; it is pleasant to take; and I can cheerfully recommend it.

JAMES MORSE, 364 Athens street

NO TROUBLE SINCE USING

EGETINE

CHARLESTOWN, October, 1870. This certifies that my daughter has always been troubled with a humor, which has eaused frequent swelling on her tace and about her
